MEMORANDUM FOR: Acting Deputy Director (Support)

25X1A

SUBJECT: Proposed Regulation [REDACTED] Security of
Areas and Buildings
(Job #249-REB)

1. Subject regulation is recommended for authentication.
2. The Director of Security, who initiated this draft, states that all comments received as the result of the coordination process have either been incorporated in this draft or resolved, with the exception of one comment from the Deputy Director (Plans). This comment is: "The provisions of Paragraph 5a pertaining to personally owned cameras should also apply to personally owned suit cases." The Director of Security states: "It was pointed out to DD/P that space, under present office arrangements, is not available in CIA buildings to carry out such a proposal. In the design of the new CIA building this Office will examine the security principle involved and available space to determine whether or not personally owned objects which are not usually carried on a person should be stored at guard entrances."
3. This regulation has been coordinated with, and concurrences received from:
